

24th June, 2016 | Taj Lands End, Mumbai

Healthcare in India continues to be at a critical juncture. With out-of-pocket expenditures as high as 80% in some cases, affordability still remains a serious issue. Further, the quality of healthcare being delivered across the country is not consistent. While the large hospitals can boast of state-of-the-art modern medical technology, the same cannot be said of the smaller hospitals and nursing homes operating across the country thus leaving a large section of our society vulnerable to the dangers of sub-standard quality. These awards are in keeping with its commitment to recognize innovative growth strategies and solutions adopted by the best companies in the healthcare industry. Award categories span across various healthcare segments such as Pharmaceuticals and Biotechnology, Medical Technologies, Healthcare Delivery Services and Special Awards. Healthcare awards recognise and reward projects and professionals that lead innovative healthcare practice and make a real difference to patients' lives in the healthcare science and allied health professions. The awards are unique and cover all these professional and specialists groups whose achievements so often go unnoticed. Healthcare awards highlights winning work and offer the creative healthcare industry their well-deserved recognition. We hope these efforts will draw attention to the talent and inventiveness of your global community. Expert and independent judging panels, drawn from all parts of the healthcare system, determine the outcome in each Award. The Awards have a proud tradition of unearthing the quiet achievers and outstanding services and programs making our health system the best it can be.
